

"How to join VRMandat"

Founded by Dominic Lüthi

How SMEs & Start-ups can search for potential candidates in database & contact them directly

Most of the board memberships are assigned within the closest network of friends. To counteract this, respectively to offer companies an independent and neutral channel for the board search, we founded VRMandat.com (Boardplacement.com), the first digital matchmaking platform for board of directors and advisory boards in Switzerland. We provide pure online matchmaking, what means we do not actively mediate between candidates and potential employers. The supply and demand can be matched anonymously and fast. 85% of our customers are based in Switzerland, 15% in Germany, Austria and Liechtenstein.
